### Listed Options

Account Service	Fee	Frequency
Listed Option Purchase or Sale	\$45 per Trade plus \$5 per Contract	Per Trade
Exercise or Assignment	Subject to Equity Commission Rates Above	Per Trade

## Advisory Account Trading Fees

Trading fees are included in your wrap fee assessed for your investment advisory account.<sup>4</sup>

<sup>4</sup> Lincoln and Capital Analysts' Wrap Fee Programs bundle the fee for the management/ advice and include most transaction costs, surcharges and fees to the broker-dealer that has custody of your assets, and therefore are higher than a typical asset-based advisory fee. See your investment advisory agreement for details on the fees and costs applicable to your account.

<sup>10</sup> Corestone is an optional flexible asset management account that consolidates daily activities, including check writing, investing and bill payments, to one account. Contact your financial professional to obtain more information.

In addition to these fees and costs, Lincoln Investment also receives other compensation from third party product providers and platform providers. Please review our Terms & Conditions for opening an account as well as Disclosures, Section VI, Other Compensation and Conflicts of Interest of [The Lincoln Investment Companies Investor Agreement and Disclosure Handbook](#) for further details, including conflicts of interest applicable to Lincoln Investment and Capital Analysts. For additional costs, information and conflicts related to mutual funds and other investments available through our brokerage and advisory accounts, review the Education section of [The Lincoln Investment Companies Investor Agreement and Disclosure Handbook](#) including Section V, Mutual Funds, and the prospectus for each fund. For additional costs, information and conflicts related to advisory offerings, including advisory fees, wrap fee programs and share class selection which will impact your account performance, see your investment advisory agreement, the [Lincoln Investment Form ADV Part 2A and Appendix I \(Investment Advisory Disclosure Brochures of Lincoln Investment\)](#) and [Capital Analysts Form ADV Part 2A and Appendix I \(Capital Analysts Investment Advisory Disclosure Brochures\)](#).

Brokerage commission schedules are established by Lincoln. Pershing charges trading and account service fees. For accounts held on Pershing's platform for which Lincoln Investment is introducing broker-dealer (i) Pershing charges trading and account service fees for which Lincoln Investment, as introducing broker-dealer, has added a mark-up that ranges from 0% to 400%; (ii) For certain trading and account services for which Pershing does not assess a fee to Lincoln investment, Pershing permits Lincoln Investment, as introducing broker-dealer, to impose its own fee which is charged to you. The receipt of these fees creates a conflict of interest for Lincoln Investment since it creates an incentive for Lincoln Investment to continue to use Pershing as custodian over other custodians that do not permit us to mark-up the trading and account service fees or would limit the amount, or that would not permit us to set our own fee.

The most current version of the Platform Fees and Disclosures is available at [www.lincolninvestment.com](http://www.lincolninvestment.com) and is subject to change.
